04(2).24.9 Trees by NBW

A response has been received to the letter that the PC sent to a resident regarding the willowtrees at the bottom of Foxhill Lane which stand on Common land. The resident disagrees with the PC's assertion on ownership of the trees and responsibility for their maintenance.

Tags had been put on all trees which are the responsibility of the PC, including these willows, however the resident has removed them and asked that they are not replaced. He states that the trees were planted by a previous neighbour and maintained by residents. He said that OCC in 2008 pollarded 4 willows and made no charge. There was no disagreement then over land ownership. In 2015 the PC arranged for remedial work to be carried out on two of the trees as a result of storm damage. The resident states that he will deal with the 3 trees which asserts are within his curtilage and requests that the PC deals with the remaining 2.

The PC has a map of all the trees in the village which are the responsibility of the PC, clearly identifying all the trees in question. The councillors discussed the boundary positioning, and ownership of these Willows with the benefit of multiple maps/plans showing site location and history. Several residents had provided further information relating to boundaries of the land in question.

It was resolved that the PC will respond to the letter received and that **NO and HD draft a response to be circulated to all other councillors.**
